This venue is a great choice for a training center. It offers several convenient training rooms in various sizes, and there are plenty of restaurants and kopitiam on the first floor for additional dining options. Ample parking is also available. However, the traffic can be a bit congested in the area. Overall, it's still an excellent choice for a training center at an affordable price. And thank you so much Ms Fira and Ms Ayda for your assistance for my 2 days training here!
